## Summary

---

Experienced Frontend & Full-Stack Developer with 5 years of experience building scalable web and mobile applications. Proficient in JavaScript, TypeScript, and modern frameworks like Angular, Next.js, and Vue. Skilled in agile methodologies, project management, and system integrations, with a strong focus on performance optimization and user experience. Passionate about developing efficient, secure, and high-performing applications.

## Experience

---

QS Digital – Frontend Developer & Project Manager (February 2024 – Present)

- Developing and managing monorepo projects using Angular, TypeScript, Next.js, Bootstrap and MUI.
- Leading project planning and sprint management, ensuring timely delivery of key features.
- Implementing scalable UI components and state management for enhanced application performance.

KraKen Tech Studios - Frontend Developer - June 2023 - September 2023

- Built and optimized payment integrations with PSE and Epayco for fiat and cryptocurrency transactions in Colombia.
- Developed responsive UI components in Next.js and TypeScript for a seamless user experience.

Cobuild Lab - Full Stack Developer - March 2022 - March 2023

- Designed and deployed cloud-based applications using AWS services (EC2, S3, QuickBooks integration).
- Developed and maintained React and React Native applications, improving system efficiency.
- Collaborated with backend teams to optimize API performance and security.
- Developed database model for new integrations.

Orinoco Dev - Full Stack Developer March 2019 - February 2022.

- Engineered fiat currency exchange flows using Node.js, Vue, and Quasar, enhancing transaction speed.
- Implemented automated end-to-end testing with Cypress and JMeter, reducing bugs by 40%.
- Managed and optimized Linux-based cloud deployments for improved reliability.
